U01-4-402
UNIVERSAL HD THROTTLE CABLE KIT. PUSH FIT 6mm CONDUIT, 1.25m

This high-quality universal Harley Davidson throttle cable kit includes **1.25m** of standard black conduit (6mmø), **1.65m** of inner wire (1.2mmø) and selection of fittings. One end of the inner wire is fitted with a ball nipple (4.3mmø). The other end will need to be cut to length and the required nipple tightened in place. The ferrules are crimped on the conduit at one end. The ferrule bends can be bonded in place during the assembly with glue or use a centre punch to make a small indentation in their side. The fittings can be adapted for a range of models.
