

ADJUSTER AND FERRULE KIT

Part ref: ADJUSTER

There are no hard and fast rules where motorcycle cable manufacture is concerned, because of the wide variation between different machines. Our workshop kits contain the more popular sized fittings from the hundreds of different nipples, ferrules and other cable components we stock. We recommend these kits are purchased as a base from which to build a more personal selection.

This kit contains cable end ferrules as well as popular end adjusters. Components are manufactured from either brass or mild steel (zinc plated) and can be individually topped up at any time.

Ferrules

50 x F1
 50 x F2
 50 x F35
 25 x F82
 25 x F89
 25 x F89B
 10 x FR166
 25 x F100
 25 x F101
 10 x F102
 25 x F103
 10 x F115

Adjusters

10 x A8125/42
 3 x ACS850
 10 x A26B
 5 x ACS825
 5 x ACS836
 10 x A6100/32

Lock Nuts

46 x LN8125
 20 x LN250B
 20 x LN6100
